Kentuckian Is Not Normal, and Therefore Escapes Death.

Lexington, Ky., Dec. 24.—Calloway Sebastian, who has just been released from the hospital here, owes his life to the fact that his heart is located lower in his body than in most people. In an election day fight in Lee City, Wolf county, Sebastian was shot through the breast. He was brought to the hospital here for treatment. The X-rays showed the bullet in Sebastian's right lung. An English paper tells of a clergyman who had two curates, with the older of whom he was always at swords' points. OVERRUN BY TRAMPS

New York Charitable Institutions Besieged by Mendicants.

New York, Dec. 30.—Bands of migratory mendicants and hundreds of unemployed workmen from other cities are pouring into New York and the in-rush of dependents on the municipality has developed a situation which the charitable institutions are unable to meet. Hundreds of applicants for help in way of clothing, food and lodging are being turned away daily by philanthropic institutions and to consider these extraordinary conditions an informal meeting was held by representatives of twenty charitable organizations. The records showed that hundreds of applications for aid came from those who had come here from other cities, and plans were discussed to stem the rush of mendicants. While no decisive action was taken, it was the sense of the meeting that the department of charities should provide an adequate work test in connection with its treatment of lodgers.

HAD THINGS PLANNED

Daring Gotham Robber Worked on Scientific Basis.

New York, Dec. 30.—The police have taken into custody Ernest Archer, who, they allege, has been scientifically robbing residences on Fifth avenue by posing as an elevator inspector.

Archer was arrested while in the home of Colonel William Barbour. He was held in heavy bail. In his pockets, the police assert, were found blueprints showing outlines of elevator construction in the homes of John D. Rockefeller, John Jacob Astor and other well-known financiers. It was Archer's plan, the detectives allege, to visit the home of wealthy families and state that he had come to inspect the elevator. As he seemed so intent in examination, which he made with the aid of the blueprints, no attention was paid to him. After his departure jewels and other valuables were found to be missing.

A CYCLOPEAN SERVICE

Colonel Goethals Breaking All Records in Construction Work.

Washington, Dec. 24.—The excavation from the line of the Panama canal last month aggregating 1,838,486 cubic yards, would have covered ten city blocks to a depth of forty feet. No such work has ever been done before as Colonel Goethals has been doing on the isthmus, according to statistics presented in the official canal record just received. For instance, it is shown that every fifty working days the commission is moving an amount of material equal to the pyramid of Cheops, which consumed the labor of 100,000 men for twenty years in the building, and the services of the same number of men for ten years in constructing the road connecting the work with the quarry. The commission could build the Suez canal at the present rate of progress in 3.8 years, though it took ten years for DeLespessier to complete his work. The famous Manchester ship canal could be excavated by the American canal workers in just twenty-five months, and even Emperor William's magnificent Kiel canal could be dug by the Americans in five years.

Another Millionaire's Suicide.

New York, Dec. 27.—Ernest G. Stedman, one of New York's most prominent lawyers, rated to be worth in excess of \$7,000,000 and a cousin of Edmund Clarence Stedman, the poet-banker, committed suicide by leaping in front of a local subway train at the Fourteenth street station. Financial troubles are believed to have been the principal contributing causes for the suicide.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by all druggists.

A GENERAL SHAKE-UP

Congress May Take a Hand in the Naval Muss.

Washington, Dec. 26.—It will not be a surprise if congress decides to make a thorough investigation of the navy department. The resignation of Rear Admiral Brownson as chief of the bureau of navigation serves to emphasize the need of a general reorganization of the department. While many reasons for Brownson's resignation are given, the fact is that he tired of the constant friction between the several bureaus. His closest friends say that no one thing precipitated the resignation.

Persons who know something of the conditions in the department believe it would be a good thing for congress to give the entire department an overhauling with the view of adopting a reorganization plan of some sort. The belief is widespread that the department is wasting an enormous sum of money annually. The seven bureaus are in a quarrel constantly. The secretary of the navy is only a figurehead.

While attempts have been made to discredit the recent published criticisms of the department, the fact is that most of the criticisms thus offered are, in the main, well founded. Congress has not been satisfied with the way things have been going, and when the legislative leaders get back here they will undoubtedly consider the advisability of a general investigation.

Sacred Rights.

A true specimen of manly chivalry was encountered in a Boston kindergarten. The teacher discovered that a very small boy was chewing gum, and she bade him disgorge it.

"I can't," he said.

"You can't?" she answered in surprise. "Why, yes, you can, and you must."

"No, I can't," he persisted and kept the gum in his mouth.

"Now, why can't you give me that gum, Johnny?"

"Because it belongs to a little girl in Somerville."—Ladies' Home Journal.

Hard Lines.

"My mother gives me a nickel every morning when I take cod liver oil," said Willie proudly.

"What do you do with it?" inquired his little friend.

"Mother puts it in a money box until there is a dollar."

"And what then?"

"Why, then mother buys another bottle of cod liver oil with it."

Embarrassed the Boy.

A business man was telling some friends of the disadvantages of having two telephones in his business office.

"A new office boy entered upon the discharge of his duties last week," said the merchant, "among which duties is that of answering the telephone calls. The very first call resulted in his coming to me with the statement: 'You're wanted at the phone by a lady, sir.'"

"Which one?" I asked, thinking of the two phones.

"Well, sir," said the boy after an embarrassed pause, "I—I think it's your wife, sir!"—Harper's Weekly.

A Chance For Fighting Bob.

Through a typographical error in the title a bill came to the senate reading "A bill to retire pretty officers in the navy," etc., when it should have read "pretty" officers.

Senator Tillman, who is no great shakes for beauty himself, saw the bill, read the title and said: "That's a good idea. Retire all the pretty officers and give Bob Evans a chance."
